

M c G U I R E

Good design is innovative, thoughtful and visionary. It is the elevation of craft to an art form – where beauty and function are aligned. Good design is wrought with a passion and respect for history. It is authentic, honest and lasting and will be passed down for generations. Good design has power, creates an impact and is simply that which gives a room its soul.

Welcome to McGuire, where good design has lived for 60 years. Herewith, a few of our favorite designs that have stood – and will stand – the test of time.
